Senator Ted Stevens: A life of public service

In 2011, the Alaska State Legislature dedicated the fourth Saturday in July as Ted Stevens Day as a tribute to the Senator's many contributions to our state. Gather with Juneau's conservatives as we look toward the upcoming elections to city, state, and national offices.

Alexander Dolitsky is an anthropologist and author. You may know him from his articles in *The Alaska Story* or his book signings in town. His home is filled with amazing art by artists from Alaska to Thailand. He worked with Senator Stevens on the creation of a bronze monument honoring the WWII Lend-Lease program.
